Discussion

A reply to the discussion by J. Bensted and J. Munn of the paper “Redefining cement characteristics for sulphate-resistant Portland cement”[☆]

Received 30 July 2003; accepted 30 July 2003

The authors thank John Bensted and Juliet Munn for their interesting and thoughtful discussion of our paper. We are in general agreement with the contents for their discussion and believe they have illuminated important aspects of sulphate resistance.
