

## CONTENTS—*continued from inside back cover*

- 3279 Fabrication and characterization of zinc phosphate passivation layers for ZnO-based varistor  
W.S. LEE, W.T. CHEN, T. YANG, Y.C. LEE, C.Y. SU, S.P. LIN & C.L. HU (Taiwan)
- 3287 Phase development in the catalytic system  $V_2O_5/TiO_2$  under oxidising conditions  
D. HABEL, J.B. STELZER, E. FEIKE, C. SCHRODER, A. HÖSCH, C. HESS, A. KNOP-GERICKE, J. CARO & H. SCHUBERT (Germany)
- 3295 Fabrication of transparent ceramics through melt solidification of near eutectic compositions in  $HfO_2-Al_2O_3-GdAlO_3$  system  
S. ARAKI & M. YOSHIMURA (Japan)
- 3301 Erbium-doped LAS glass ceramics prepared by spark plasma sintering (SPS)  
P. RIELLO, S. BUCELLA, L. ZAMENGO (Italy), U. ANSELM-TAMBURINI (Italy, USA), R. FRANCINI, S. PIETRANTONI (Italy) & Z.A. MUNIR (USA)
- 3307 Comparison between barium and strontium-glass composites for sealing SOFCs  
M. BROCHU, B.D. GAUNTT, R. SHAH, G. MIYAKE & R.E. LOEHMAN (USA)
- 3315 Transport properties of sealants for high-temperature electrochemical applications:  $RO-BaO-SiO_2$  ( $R = Mg, Zn$ ) glass-ceramics  
M.J. PASCUAL (Spain), V.V. KHARTON, E. TSIPIS, A.A. YAREMCHENKO (Portugal), C. LARA, A. DURÁN (Spain) & J.R. FRADE (Portugal)
- 3325 Crystallization kinetics of  $La_2O_3-Al_2O_3-B_2O_3$  glass-ceramic composites  
C.-L. CHEN, W.-C.J. WEI (Taiwan) & A. ROOSEN (Germany)
- 3335 Sintered sanidine glass-ceramics from industrial wastes  
E. BERNARDO, R. CASTELLAN, S. HREGLICH & I. LANCELOTTI (Italy)
- 3343 NMR techniques: A non-destructive analysis to follow microstructural changes induced in ceramics  
R. VIOLA, A. TUCCI, G. TIMELLINI & P. FANTAZZINI (Italy)
- 3351 Formation of high-temperature crystalline phases in ceramic from illite clay and dolomite  
G. SEDMALE, I. SPERBERGA, U. SEDMALIS (Latvia) & Z. VALANCIUS (Lithuania)
- 3357 Cyclic fatigue and lifetime of a concrete refractory  
F. THUMMEN, C. OLAGNON & N. GODIN (France)
- 3365 Influence of combustion aids on suspension combustion synthesis of mullite powders  
O. BURGOS-MONTES, R. MORENO, M.T. COLOMER & J.C. FARIÑAS (Spain)
- 3373 Colour and proportion of grains measurement in through-body porcelain tiles by means of image processing  
J.A. PEÑARANDA, C. FLORES, L.G. CORZO & I. GUTIERREZ (Spain)
- 3383 Effects of solvents on properties of nanocrystalline hydroxyapatite produced from hydrothermal process  
X. GUO & P. XIAO (UK)
- 3393 Microstructure and properties of  $Al_2O_3-TiC$  nanocomposites fabricated by spark plasma sintering from high-energy ball milled reactants  
Y. ZHANG, L. WANG, W. JIANG, L. CHEN & G. BAI (China)
- 3399 Reinforcement of precursor-derived Si-C-N ceramics with carbon nanotubes  
Y. KATSUDA (Germany, Japan), P. GERSTEL, J. NARAYANAN, J. BILL & F. ALDINGER (Germany)
- 3407 Long term oxidation behaviour of liquid phase pressureless sintered SiC-AlN ceramics obtained without powder bed  
G. MAGNANI & L. BEAULARDI (Italy)
- 3415 Fabrication and residual stresses characterization of novel non-oxide multilayer ceramics  
D. SCITI, M. NAGLIATI (Italy, Japan), S. TOCHINO, G. PEZZOTTI (Japan) & S. GUICCIARDI (Italy, Japan)
- 3425 Measurement of output voltage of aluminum nitride thin film as a pressure sensor at high temperature  
K. KISHI, Y. OOISHI, H. NOMA, E. USHIJIMA, N. UENO, M. AKIYAMA & T. TABARU (Japan)
- 3431 Effects of  $CaCO_3$  content on the densification of aluminum nitride  
A.L. MOLISANI, H.N. YOSHIMURA, H. GOLDENSTEIN (Brazil) & K. WATARI (Japan)

- 3441 Silicon oxycarbide-based composites produced from pyrolysis of polysiloxanes with active Ti filler  
H.D. AKKAŞ, M.L. ÖVEÇOĞLU & M. TANOĞLU (Turkey)
- 3451 Physico-chemical characterisation of silicon carbide refractories  
M.F. GAZULLA, M.P. GÓMEZ, M. ORDUÑA & A. BARBA (Spain)
- 3459 Interfacial microstructure of the  $\text{Si}_3\text{N}_4/\text{Si}_3\text{N}_4$  joint brazed with Cu–Pd–Ti filler alloy  
J. ZHANG, Y. ZHOU (PR China) & M. NAKA (Japan)
- 3467 Effect of post-sintering heat-treatment on thermal and mechanical properties of  $\text{Si}_3\text{N}_4$  ceramics sintered with different additives  
T. WASANAPIARNPONG (Japan), S. WADA (Thailand), M. IMAI & T. YANO (Japan)
- 3477 Friction and wear behavior of C-based composites in situ reinforced with  $\text{W}_2\text{B}_5$   
Y. LV, G. WEN & T.Q. LEI (China)
