

JOURNAL OF THE EUROPEAN CERAMIC SOCIETY

The *Journal of the European Ceramic Society* publishes the results of original research and reviews relating to ceramic materials. Papers of either an experimental or theoretical character will be welcomed on a fully international basis. The emphasis is on novel generic science concerning the relationships between processing, microstructure and properties of crystalline ceramics consolidated at high temperature. Papers may relate to any of the conventional categories of ceramic: structural, functional, traditional or composite. The central objective is to sustain a high standard of research quality by means of appropriate reviewing procedures.

Editors

R.I. Todd

Senior Editor

University of Oxford, Department of Materials, Parks Road, Oxford, OX1 3PH, UK

V. Buscaglia

Editor

I.E.N.I., Consiglio Nazionale delle Ricerche (CNR), Via de Marini, 6, 16149 Genova, Italy

J. Chevalier

Editor
